

slides

Built with WebFluent

What this deck is

A starter PDF slide deck. Each Slide compiles to one PDF page.

Layouts

- Slide — freeform content
- TitleSlide — cover page
- SectionSlide — divider between sections
- TwoColumn — two side-by-side columns
- ImageSlide — image with optional caption

Left column

Content on the left wraps at the gutter.

Right column

Content on the right has its own layout cursor.

Wrap up

Thanks!
